HUNTER'S MEDICAL MAN-UAL.—The author of this work unike the majority of those works who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. JOSEPH LONGSHORE, M. D.

FROM A. WGODWARD, M. D., OF PENN. UNIVERSITY, PHILADELPHIA.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Mannal." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. ALF. WOODWARD, M. D.

This is, without exception, the most comprehensive and intelligible work published on the class of diseases which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objections. to the reason of its readers. It is free from all objections-ble matter, and no purent, however fastidious, e to placing it in the hands of his sons. A Presbyterian clergyman in Ohio, in writing of "Huner's Medical Manual," says:—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution without realizing the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wretchedness, would confer the greatest blessing

With all his Latest Corrections and Revisions, entitled,

THE PEOPLE'S EDITION.

WITH AN ELABORATE LIFE OF THE AUTHOR, IN ONE UNIFORM A volume will be published on the 1st and 15th of every month until the series is completed. Elegantly printed on superb paper, manufactured ex-pressly for this edition, and bound in

embossed cloth, in a tasteful and uniform style. Price for each volume, ONE DOLLAR. Since the death of our illustrious novelist, the author of The Spy, his merits have been largely cauvassed by the critics of all countries, and his rank may now be considered as definitely settled. It is agreed that he is not only the Gerransv and most sarrowal of our own writers, but that he is of the class of Cervantes, Le Sage, Shakspeare, Goethe, and Scott, whose displays of genius in literature entitle them to a universal and immortal popularity.

Mr. Cooper was the originator of three distinct classes of noyels; those which illustrate modern nautical experience, those which deal with our own revolutionary history, and

those of Indian and pioneer life in this country. In these hree classes he has had troops of imitators, but no equal; and it is confessed that he is in none of them approach-Says the Edinburgh Review: "The empire of the sea has Says the Edinburgh Review: "The empire of the sea has been conceded to him by acclaimation; and in the lonely desert or untrodden prairie, among the savage Indians, or scarcely less savage settlers, all equally acknowledge his dominion. Within this circle none dares walk but he."

Victor Hugo, the greatest of cotemporary romancists and critics, declares that Cooper is a creator, indeed, "a prodigious genius," and in an elaborate review of his works asserts his superiority to Scott. This is the tone of the most approved criticism of continental Europe.

In this country, Washington Irving, Edward Everett, Bryant, Prescott, Bancroft, and ethers of the highest authority in such matters, concur in acknowledging the amazing power, solender, beauty and attractiveness of his

amazing power, splendor, beauty and attractiven reductions, The undersigned, who are the proprietors of the copy The undersigned, who are the proprietors of the copyrights of all the Novels and Tales or Mr. Cooper, propose to issue an edition of them containing all his latest corrections and improvements, to be called THE PEOPLE'S EDITION. The extraordinary success of their other editions does not permit them to doubt that this announcement will be received with the highest gratification by all their countrymen who, in the selection of their libraries, have a regard both for literary excellence, and the oultivation of a truly and dignified national character.

regard both for literary excellence, and the outlivation of a truly and dignified national character.

The People's Edition will be issued on paper of the same size and quality as that used for the b rattis leds on of the Worksof Irving, and in a similar style offinding, and the volume will be sold at the extremely low price of One Dol-lar each, which is 20 per cent, lower than that of the works of any copy-right author presented in the same excellent manner. The volumes will be published on the FIRST and FIFTEENTH of every month, commencing with the month of December, until the entire series is completed, making in all Thirty-Four Volumes.

This carefully revised edition will be more handsomely

This carefully revised edition will be more handsomely printed than any of the preceding editions. The semi-monthly mode of publication has been adopted, as the best method of bringing it within the reach of all classes; thus affording to the less affluent an opportunity to avail themselves of the privilege of securing, for a very moderate sum, the most beautiful and the most perfect set of the Complete Works of J. Fenimore Cooper that has yet appeared.

THE VEGETABLE PILLS, Prepared by the Graefenberg Company, Were compounded after long study and observation of the laws of nature, and a close reflection upon the properties of different medicinal agents, so that, taken together, they should form a pill which would act in harmony with these laws, and aid nature herself to work a cure. We must obhaws, and aid nature herself to work a cure. We must observe that when the body is diseased, the various organs composing the vital system make effort to throw off the disorder, and it is to aid these organs in their work that medicine is designed. The remedies too often used will not do this, but will, by main force, if we may use the expression, upset the whole vital organization, and, while carrying off the diseased matter, will leave every part of the system unthe diseased matter, will leave every part of the system un-strung, even if it do not bring on other derangements worse than the first. The true operation of medicine is to give increased activity to the means possessed by nature for the removal of the causes of disease. This can be done by gen-tle means; and we know, from observation and experience that the Graefenberg Vegetable Pills combine the kinds and quantities of vegetable remedies necessary to effect the desired and

The inventor of the Pills was for many years afflicted with a complication of diseases, the result of some bilious de-rangement. It seemed utterly impossible that his health should ever be restored, and the best exertions of the profession were all in vain. A physician himself, he spent many a weary hour in reflecting on medicine and its effects; and to the torturing pains of a sick bed may be traced the discovery of a pill which restored the discoverer to health, and which is now in constant use by hundreds of thousands, who can attest its efficacy. Price, 25 cents per box, or five boxes for \$1.

HARRISON, TENNESSEE.

Gentlemen: The Graefenberg Medicines are taking fine-ly as the people are becoming acquainted with them; the Sarsaparilla has especially done wonders in cases of liver and lung complaints of long standing—one case in particular, that of Judge Gardenhire, who has been confined to his house for nearly two years with an internal disease, so had that he was alraid to walk out of right for fear he would drop down. Two bottles of sarsaparilla and three hoxes of the Vegetable Pills have made him quite well and tree.
